**Vitter Wants Transparency from Gina McCarthy on Previous Air Requests**

(Washington, D.C.) – U.S. Sen. David Vitter (R-La.), top Republican on the Environment and Public Works Committee, today made the following statement regarding Assistant Administrator for the Environment Protection Agency’s (EPA) Office of Air and Radiation, Gina McCarthy.

“With Lisa Jackson’s resignation, I want to know who will respond to my outstanding request of one year and nine months regarding the scientific methods used to base the EPA’s regulatory agenda,” said Vitter. “Assistant Administrator McCarthy is directly responsible for these concerns, and the failure to respond is not a good sign. The administration should be looking for someone who will end the standard of ignoring congressional requests, undermining transparency and relying on flawed science. Instead, it looks like they may double down on that practice.”

Currently, EPA has yet to respond to three requests from Sen. Vitter. Vitter cites three specific requests directly under McCarthy’s jurisdiction that have not been answered. Links to his letters are below.

Can you please take a quick look at the first 2 files (UDA 002a.. and UDA 002b..) and offer advice on (b) (5) AUMs and the next 5-year plan.

I'm not up to speed on the DOE report on AUMs (UDA 002a.. and UDA 002d..). Any ideas?

Attached are Jody's comments for Udall 002a-002d. As you can see in her email, she's about to be out of the office for a little while, so could you let the program know she'd like to have responses by the 11th, if possible?

Thanks,

Hi Christina,

These were vetted with OAR, ORD and Region 8 late last week and I am including the track changes version below. We have concurred with most of the comments and where we haven't concurred, we have placed a rationale or some sort of explanation. These look good and I think we are close to clearing. Let me know if you have questions.

Can you please print out these attachments? The first transmittal will need to be on OCIR's letterhead for Laura's signature, and the QFRs on regular paper as attachments. Can you assemble the package and put on my desk?

Fyi I'm so glad they finalized plans – this letter is in our controlled correspondence assigned to me. Alex and I will be on the look out for it.

We have also done quite a bit of work, prepping the new OIRA Administrator (Shelanski) for the hearing on the Social Cost of Carbon. We have testimony, q&a's and some background materials. Alex B. has them too. Let me know if you want copies sent to you.

### **Vitter Wants Transparency from Gina McCarthy on Previous Air Requests**

**(Washington, D.C.)** – U.S. Sen. David Vitter (R-La.), top Republican on the Environment and Public Works Committee, today made the following statement regarding Assistant Administrator for the Environment Protection Agency's (EPA) Office of Air and Radiation, Gina McCarthy.

“With Lisa Jackson’s resignation, I want to know who will respond to my outstanding request of one year and nine months regarding the scientific methods used to base the EPA’s regulatory agenda,” said Vitter. “Assistant Administrator McCarthy is directly responsible for these concerns, and the failure to respond is not a good sign. The administration should be looking for someone who will end the standard of ignoring congressional requests, undermining transparency and relying on flawed science. Instead, it looks like they may double down on that practice.”

Currently, EPA has yet to respond to three requests from Sen. Vitter. Vitter cites three specific requests directly under McCarthy's jurisdiction that have not been answered. Links to his letters are below.
